SAND ROCK - ROCHES DE SABLE

WORLD WIDE NEGOCE & DISTRIBUTION

## COMPOSANTES TECHNIQUES BELLE VIE

Procédé d'empilage composite innovant (coulée, épais convexe, meulage, etc.), les produits de cadeau ont une texture et un goût plus remarquables.

La technologie **Stone Mark**, l'ensemble du processus d'évolution en pierre simulée cent millions, crée un anneau extérieur cohérent, une texture éclatante.

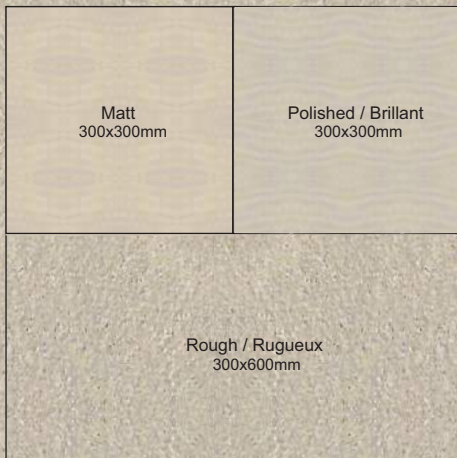

Technologie de pénétration en profondeur Super Trinity, texture trois pierres parfaite dans le même carreau de céramique, plus naturelle et vraie.
